

Trainee Water Hygiene Technician

Would you like to work in the water treatment sector? Working as a water hygiene technician preventing Legionnaires' disease? Dantek are leading providers of Legionella prevention in the South West and we are looking for a talented field-based technician to join our team.

This varied role offers career progression and technical training at a company with a great reputation in the legionella control industry.

The ideal candidate will have experience of field service work, together with good practical skills and a great attitude to customer service.

The work is varied and the environment changes daily, making this a challenging and interesting role.

Package

Starting Salary £20K per annum

Overtime opportunities and bonus scheme

20 days holiday per annum plus bank holidays, increasing with service.

Company van

Full induction

Training in Water Hygiene and career progression opportunities

Full statutory entitlements

Hours

Monday to Friday 40 hours per week

The work is field based in the South West, South Wales and the Midlands with some nationwide contracts.

The role will be based and managed from our office in Thornbury.

Selection criteria

Candidates must have:

- GCSE Maths and English grade C and above
- Experience which demonstrates practical skills and technical ability
- Capable of physical work, lifting, carrying and climbing
- Full current UK driving Licence

Candidate MAY have:

- 1 year+ experience in any field-based role
- Plumbing qualification or plumbing experience
- Building services or facilities experience
- Knowledge of the ACoP L8 and HSG274
- Confined Spaces certificate
- Current CSCS Card

Job tasks and functions

The job is varied and requires manual, technical, administrative, and general tasks. Below is a guide to the tasks to be performed:

Manual tasks

- Cold water storage tank cleaning and disinfection, which includes handling and dosing chemicals.
- Showerhead cleaning and disinfection
- Cold water storage tank inspections
- Water hygiene monitoring tasks including temperature testing, tank inspections, samples and calorifier inspections.

General tasks

- Preparing and completing job sheets by hand
- Ensuring there is a full working set of equipment and P.P.E prior to attending site work
- Driving to site (circa 25,000 business miles per annum)
- Taking and submitting water samples
- Completing log books
- Maintaining a professional and tidy appearance, both personally and with the kit and van

About Dantek

Dantek Environmental Services (UK) LTD is a Bristol based Water Hygiene Service Company.

Dantek are specialists operating in the building services sector. We provide solutions for statutory Health and Safety compliance issues, such as the control and prevention of Legionnaires' disease.

We believe Legionnaires' disease is a man-made problem which is and should be completely preventable.

We are members of the Legionella Control Associations' Code of Conduct which is the recognised trade body for what we do.

Dantek Environmental Services Ltd is an equal opportunities employer.
