

Water hygiene technician - plumber

Are you a plumbing professional looking for a change in career but still want to use your plumbing knowledge and experience? If so, this is a fantastic opportunity to take on an interesting and challenging role with a forward-thinking business who is focused on technical excellence. You will get to use your plumbing skills in a totally different way by focusing on protecting people from legionnaires' disease.

About you

You will have a wealth of plumbing experience to draw on and be confident to take on jobs where you make decisions and get results. You will be seeking a new challenge and have the desire to move on from domestic plumbing and will be excited by working in a niche industry where your skills are highly valued.

In addition to typical plumbing work you may also have experience of TMV servicing, internal calorifier inspections, dead-leg removals and possibly BS8558 disinfection and flushing or water softener service.

Being organised and professional in your reporting and with naturally great communication skills when talking with customers you will have a positive, can-do attitude and be highly professional.

About the role

You will be working as part of a small, dedicated team who are devoted to preventing and controlling the risk of legionella bacteria. Depending on your location the work will predominantly be either in the Midlands or in and around Bristol, South Wales and the Southwest of England. You must enjoy driving and occasionally staying away for work. The work is varied and you will go to a different site each day meeting lots of new people and dealing with different challenges on a daily basis.

On a day-to-day basis the role includes:

- Cold water storage tank cleaning and disinfection
- Temperature Monitoring
- Showerhead cleaning and disinfection
- Tank inspections
- Taking water samples
- Calorifier inspections
- TMV servicing
- LTHW
- BS8558 disinfection
- Minor plumbing alterations

It also includes the following more general tasks:

- Preparing and completing job sheets and procedure logs
- Being responsible for tools and equipment including PPE
- Driving to site (circa 25,000 business miles per annum)
- Completing on-site log books
- Maintaining a professional and tidy appearance, both personally and with equipment and van

Package

Starting salary £20 to £24K negotiable depending on skills and experience

Technical training provided

Bonus scheme

Overtime opportunities

28 days annual leave inc bank holidays increasing with service

Company vehicle (Van)

Full statutory entitlements

Hours - Monday to Friday 40 hours per week

About the team

Dantek Environmental Services is a Thornbury based Water Hygiene company who have built up a great reputation since 2003.

We currently employ 30 people and due to continued growth, we are looking for another talented team member. We are proud of our family culture and invest heavily in our people.

Our purpose is to solve problems caused by water in the built environment. We focus on Legionella control but pride ourselves on being able to resolve all water related issues in buildings.

You will be part of a compact, effective, and highly dedicated team. You will be supported by some of the best trained colleagues in the industry and can take comfort in our established operations team who are process driven and focused on customer satisfaction.
